

Technical Rider DJ Martino Rosso

EQUIPMENT (provided by organiser)

2 à 3 x	Pioneer/ Alpha Theta CDJ 3000 or 3000X
1 x	Pioneer / Alpha Theta DJM 900 Nexus 2 or DJM-A9
1 à 2 x	Monitorspeaker volume adjustable via DJM

All equipment must be in perfect working condition and run the latest firmware. Any deviation requires prior written approval from the artist.
(info@martinorosso.nl / +31 6 50 640 340). **Do not improvise.**

SETUP

- CDJs and mixer: connected via ethernet switch (network link, required for Rekordbox).
- The mixer's USB port must be freely accessible for the artist's laptop.
- Booth: sturdy, 100 cm high (floor to tabletop), CDJs and mixer at equal level.
- Equipment must be removed from flight cases before installation.
- Laptop: left of the DJ.
- Monitor: left of the DJ (if only one). Side or front placement only, never behind the DJ.
- Booth: next to or close to the dancefloor.

POWER

- 2 x 230V (Schuko) at the booth, in addition to the equipment's own power.

ARTIST PROVIDES

- Laptop (Rekordbox, HID mode), laptop stand and all USB cables.

SOUND & LIGHT

- Professional sound system, capable of full-range performance at club level.
- Lighting: the artist does not operate lights. The organiser arranges lighting that matches the music and atmosphere
- Booth lighting: minimum required, so that controls and indicators are readable and artist is visible.

Thank you for caring!
